

Platform Features Overview

A. Student Features

- Verified student registration (student ID / certificate upload)
- Build professional portfolio (skills, CV, projects, certificates, intro video)
- Job discovery (filters by skill, duration, budget, etc.)
- Apply to jobs with custom proposals without the ability to write in textbox, only choices and numbers (budget, timeline)
- Free plan: max 10 job applications/month
- Premium plan: unlimited applications with monthly fee
- Notifications for job invites, updates, deadlines
- In-app chat with clients (Cannot create chat, only can receive)

B. Client Features

- Register as an individual or company (Future)
- Post freelance jobs (with full job details and requirements)
- View and manage job applications
- Browse student directory with filters (skills, ratings, location)
- Points-based access to student profiles
 - View full profiles based on package quota, can see skills only, no data
 - Anonymized limited view for others
- Filter applicants
- Message students before hiring

C. Shared Features / Communication & Workflow

- In-app chat and notifications
- File sharing (resumes, deliverables)
- Project status (in progress, submitted, completed)

D. Admin Features

- Approve/reject student verification documents
- Monitor job posts and transactions
- Flag or suspend inappropriate users or projects
- Manage subscription tiers and credit pricing
